

JesperApps HRMS

All-in-One Platform to Hire, Manage, and Grow Your Workforce

Streamline Your Workforce. Empower Your Growth.

Managing people shouldn't be chaotic. JesperApps HRMS is your all-in-one Human Resource Management System designed to transform the way you hire, manage, pay, and grow your workforce. With a smart, intuitive interface and a powerful backend, JesperApps helps HR teams move from admin overload to strategic impact—seamlessly.

Whether you're a growing startup or an established enterprise, our platform adapts to your needs, delivering control, clarity, and compliance from day one.

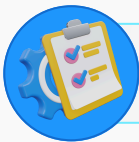

Key Benefits at a Glance

Core HRMS - Centralize employee data and access insights in real time for smarter, faster decision-making.

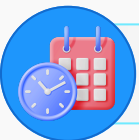

Recruitment Management - Hire faster with automated, structured tracking.

Payroll Automation - Ensure accurate, compliant, and timely payroll processing—every time.

Leave Management — Track, approve, and report leave seamlessly, giving employees & managers control.

Performance Management - Set goals, measure performance, and growth — all within one dashboard.

Key Features That Drive Results

Payroll Automation – Say goodbye to spreadsheets and errors.

Workforce Control – Manage everything from onboarding to exits effortlessly.

Appraisal Management – Build a culture of accountability and recognition.

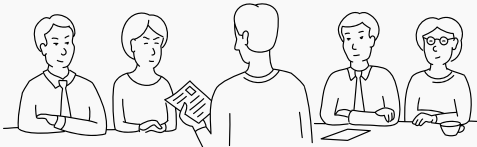

Smart Hiring – Recruit the right talent, faster.

Leave Management – Simplify time-off requests and policies.

Affordable Pricing – Enterprise-grade tools at small-business pricing.
