

# Jesper Core HRMS

**Smarter HR. Stronger Teams.  
Simpler Workflows.**

*HR Made Easy. Work Made Better.*

Managing your people shouldn't feel like a full-time job. With Jesper Core HRMS, your entire HR operation becomes easier, smarter, and more agile. From employee records to approvals and compliance, we centralize, automate, and optimize the core of your HR function—all in one powerful, user-friendly platform.

Whether you're a small business or a fast-scaling enterprise, JesperApps empowers your HR teams to focus less on admin and more on impact.

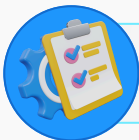

## Why Jesper Core HRMS?

Because your people deserve better, and your business demands smarter.

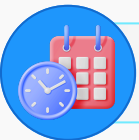

**Centralized Dashboard** - Get a bird's-eye view of all HR metrics—track, analyze, and act with confidence.

**Employee Management** - Add, update, and easily organize employee data across roles, teams, and statuses.

**Approver Management** - Design efficient workflows for leave, payroll, and appraisals.

**Client Management** — Maintain accurate client data with activation/deactivation controls—all from one place.

**Custom Settings** - Tailor user roles, departments, and workflows to match your unique business needs.

## Optimize Your HR. Maximize Your *Potential.*

**Centralized Employee Data** – Access accurate employee records anytime, anywhere—desktop or mobile.

**Automate HR Processes** – Eliminate manual work with automation for payroll, leave, and benefits.

**Ensure Compliance** – Stay audit-ready with built-in tools and automated statutory reporting.

**Streamline Operations** – Simplify complex HR tasks and boost team productivity with intuitive tools

**Scalable & Customizable** – Grow confidently with a system built to evolve with your organization

## Business-Driven benefits

**Smarter Decisions** – With real-time dashboards and centralized data, you get the insights to make strategic HR decisions faster.

**Better Employee Experience** – Employees can manage their profiles, leave, and track approvals—anytime, from anywhere.

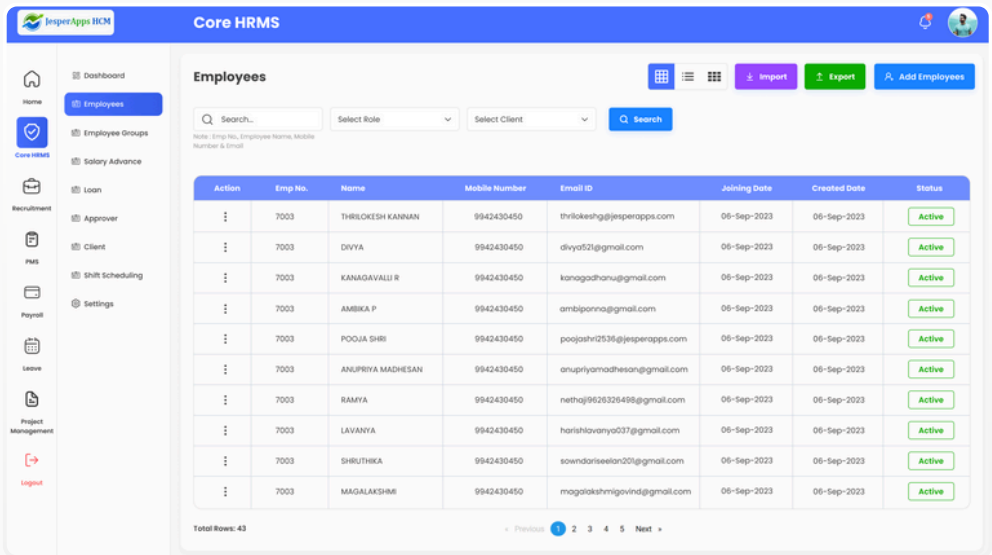

**Time & Cost Efficiency** – Automated workflows reduce HR workload and cut down on administrative overhead.

**Secure & Reliable** – JesperApps is built with enterprise-grade data security and role-based access controls for complete peace of mind.

# REAL Support. Results.

Our dedicated support team is here every step of the way—from onboarding to customization and ongoing assistance. We don't just give you software—we deliver solutions.

The screenshot displays the 'Core HRMS' web application. The left sidebar contains navigation links: Home, Employees, Employee Groups, Salary Advance, Loan, Approver, Client, Shift Scheduling, Settings, Leave, and Project Management. The main area is titled 'Employees' and features a search bar, filters for 'Select Role' and 'Select Client', and buttons for 'Import', 'Export', and 'Add Employees'. Below these is a table of employees with columns for Action, Emp No., Name, Mobile Number, Email ID, Joining Date, Created Date, and Status. The table lists 10 employees, all with a status of 'Active'. At the bottom, it shows 'Total Rows: 43' and a pagination control for 5 pages.

Action	Emp No.	Name	Mobile Number	Email ID	Joining Date	Created Date	Status
